

IT'S KINDA HARD

TO DEVELOP

HAPPY, HEALTHY KIDS

IF YOU COMPLETELY IGNORE THE HAPPY, HEALTHY PART.

WE'RE PROUD TO ANNOUNCE WE'RE NOW FUNDING HEALTH PROGRAMS.

A PB&J without the peanut butter is just a jam sandwich. A skateboard without wheels is just a piece of wood with sandpaper glued to it. A car without an engine is, well, I think you get where we're going here: you can't make something complete if you skimp on any one part. If we want our kids to grow up happy and healthy, well, we've got to make sure we're providing the whole "happy and healthy" aspect. And that's where we come in. Improving literacy, technology and the arts for all of the

34,345 kids of Marin — we've been attacking that but now we're adding mental and physical health to our roster. And who are we exactly? We're *SchoolsRule* and we're here, with your help, to make a difference in the lives of the kids — each and every one of them — in Marin County.

We're what happens when you take a group of dedicated public school foundations, put them hand-in-hand with the Marin County Office of Education and then sit back and watch as they work their tails off to ensure that there isn't a kid roaming a school hallway from Sausalito to

Novato or from San Rafael to Tomales who isn't being given the very best opportunities. It's simple: you donate money to a great cause, *SchoolsRule* takes that money and divides it up based on a per-student basis and then sprinkles it evenly over the whole of the county. It's not just a good idea, it's an idea that works, time and time again.

Baseball without a bat; a house without a roof; a hot dog bun without a frank — we could do this all day. Instead, let's get started putting health and happiness back where they belong — in our kids' lives.
