

OUR KINDERGARTEN TEACHERS

CAN IDENTIFY KIDS WHO NEED

MENTAL HEALTH SUPPORT WITH INCREDIBLE ACCURACY.

TOO BAD

THERE AREN'T ENOUGH RESOURCES TO HELP THEM.

WE'RE PROUD TO ANNOUNCE WE'RE NOW FUNDING HEALTH PROGRAMS.

Guess what? Marin County has amazing teachers: smart, capable, caring folks with the ability to help ensure students are growing up happy and healthy. Well, only if they've got the support to do so. Which is where we come in. We're already working to improve literacy, technology and the arts for all of the 34,345 kids of Marin – and now we're adding health, both physical and mental, to our roster. Let's give our talented teachers not only the ability to do what they do best, but the backing – financial or otherwise – to

allow them to do it even better. How about we start with the hiring of school psychologists, additional counselors and emotional learning professionals and go from there? And who are we exactly? We're *SchoolsRule* and we're here, with your help, to make a difference in the lives of the kids – each and every one of them – in Marin County.

We're what happens when you take a group of dedicated public school foundations, put them hand-in-hand with the Marin County Office of Education and then sit back and watch as they work their tails off to ensure that there isn't a kid roaming a school

hallway from Sausalito to Novato or from San Rafael to Tomales who isn't being given the very best opportunities. It's simple: you donate money to a great cause, *SchoolsRule* takes that money and divides it up based on a per-student basis and then sprinkles it evenly over the whole of the county. It's not just a good idea, it's an idea that works, time and time again.

"Intuitive," "considerate" and "downright fantastic" are great descriptors for the teachers of Marin County. So is "under-funded." Let's do what we can to get rid of that last one.
